

Mining & Energy New South Wales (M&E NSW) is an exhibition attracting buyers, suppliers and industry professionals across the mining, engineering and power generation sectors of the Upper Hunter. This exhibition is held every four years, M&E NSW has an opportunity to showcase the latest products, services and technology for this rapidly growing industry. Following on from the success of QREX, APAG have an opportunity to demonstrate a total integrated safety package for process control and automation with our working trade display.

The display will have the latest Automation Products integrated with CTI 2500™ Series Processors, Pilz Safety PLCs, and Parker Hannifin Web Based HMI, latest Variable Speed Drives and Pneumatic solutions. This year the trade show is being held at the Muswellbrook Showgrounds, and our **Booth 2118** (APAG) is located in the second hallway of the pavilion ([Map](#)). Details of the exhibition are as follows:

Location: Muswellbrook Showgrounds NSW
 Cnr Rutherford Road & New England Highway (See [Map](#))
 Date: 22nd to 24th September 2009
